

Area Warden

Overview

This course will enable participants to effectively identify, assess and respond to a number of different workplace emergencies.

Participants learn the relevant legislative, industry, customer and organisational requirements including Occupational Health and Safety (OHS) policies and procedures.

The course includes a simulated emergency requiring a building evacuation and a simulated bomb threat resulting in a search of a building.

Intended for

Those who want to work as part of an emergency control team

Learning Outcomes

- Respond to emergency reports, signals and warnings
- Initiate and control initial emergency response
- Anticipate the further development of emergencies
- Assist with post initial response

Unit of Competency

- PUAWER005B Operate as part of an emergency control organisation

Certification

On successful completion of the practical and theory assessments, a Statement of Attainment will be issued for the Unit of Competency outlined above from the PUA00 Training Package.

Suggested Course Companion

We recommend completing the Fire Training course before attending the Area Warden course.
