

Fire Training

(Use portable fire fighting equipment)

Overview

This course provides the theory and practice needed to fight small fires using a portable fire extinguisher, fire hose reel or fire blanket.

Through innovative technology, participants will gain practical experience in using each type of equipment to extinguish real fires in a safe and controlled environment.

AVELING's fire training simulator provides clean, safe and cost effective extinguisher training without dry chemicals or CO₂.

Mobile Fire – Group Training

This course can be tailored to suit your work environment and conducted at your workplace.

Intended for

Any individual who may need to operate fire equipment in their workplace, home or vehicle.

Learning Outcomes

- Use portable fire extinguishers to extinguish a fire
- Demonstrate correct usage of a fire hose reel and blanket

Units of Competency

- PRMPFES05B Use portable fire fighting equipment
- PUAWER008B Confine small workplace emergencies

Certification

On successful completion of the practical and theory assessments, a Statement of Attainment will be issued for the Units of Competency outlined above from the PRM04 and PUA00 Training Package.
