

Hot Work Permit

Overview

Hot Work is a term used to describe heat producing operations such as welding, flame cutting and grinding.

A Hot Work Permit (HWP) needs to be issued prior to commencing hot work tasks and relates only to the designated locations stipulated on the permit.

Intended for

Anyone who is required to issue a Hot Work Permit on a RTIO site.

Learning Outcomes

- Define hot work
- Define hot work permit areas
- Describe how hot work is managed
- Identify the Risk Management process prior to raising a Hot Work Permit
- Describe the process for raising and cancelling a Hot Work Permit

Note: Participants must complete the RTIO Basic Fire Training course before they can attend the Hot Work Permit course. Both courses can be completed on the same day.

This course covers the theory component of issuing a HWP. Participants must complete all site and area specific inductions before they can issue a HWP for that area.

Certification

On successful completion of the course participants will receive a Hot Work Permit Card.

Prerequisites

Participants are required to have sufficient numeracy and literacy skills to read and comprehend instruction. Special language, literacy and numeracy requirements should be advised at the time of booking.

- Participants must bring identification
- Minimum dress standard - neat casual, enclosed footwear and no singlets
- A completed Training Request Form is required prior to or on the day of the induction, to ensure participants are issued their cards.

Cancellation Policy

Perth and Dampier - Non-attendance or cancellation within two working days, will incur full cost.

| | | |
|------------------|----------------|--|
| Duration: | 3 hours | |
