Lumina Spark

Lumina Spark is a remarkable professional development tool that supports individuals and teams to work more effectively.

It is unique amongst other psychometric tools because it avoids any stereotyping, while enabling clear communication about personal preferences using memorable colours. Clients enjoy using it because it provides clear insight into how individuals can work more effectively with others. Individuals love it because it gives a clear, jargon-free insight into their personality.

Lumina Leader

People can be leaders in title but not display the attributes of leadership, conversely there are those who don't have these titles, but do express these qualities. Lumina Leader equips you with the tool to aid you in leading others by understanding about the people within your team. Everyone has their own unique leadership style, but there will be times when you have to adjust that style to suit the situation and the group. Lumina Leader was developed to help leaders grow as they discover how to lead more effectively.

Lumina Leader provides personalised information to support leadership development by focussing on competence-based personal qualities relating to a leader's individual style and behaviours.

Lumina Leader
